

Hiatus Rules of Etiquette

"The Ten Commandments"

1. Skipper gets on the boat first.
2. A boat is not a democracy. What the skipper says, goes.
3. Nobody touches dock lines without the skipper's permission (no practicing cleat hitches with the boat's docking lines)
6. Everybody helps get cushions out and covers off the winches and pedestal.
7. Skipper sets the rule on when PFDs have to be worn. Different skippers do it differently.
8. When the skipper is talking, nobody else is talking.
9. While underway, don't touch any lines in the cockpit unless the skipper assigns them to you as your job or specifically asks you to.
8. Nobody goes on the foredeck unless directed to do so by the skipper.
9. Wait for the skipper's order before changing sheets or going on the foredeck.
10. Skipper leaves the boat last.
